## **Protecting the Atmosphere: The Climate Change Convention and its context (International Environmental Governance Set)**

The project takes the form of a simple VCL application, the main form having a TAnimate control that only actually animates for a maximum of three concurrent instances of the application: As implemented, this works through a worker thread being created on start up, which immediately attempts to acquire the shared semaphore; if it can, then the animation is activated, otherwise the thread blocks until either it the semaphore is acquired or the application has terminated. In terms of economic growth, the initial findings of the developmental-states literature on this have been further strengthened by the rise of new economic powers, all of which have involved a central role for a capable, committed, and credible state World Bank ; also Vu Finally, it has also become clearer that the state also closely shapes the possibilities for political inclusion and empowerment amongst citizens Houtzager and Moore ; IDS Given that states can be highly capable without necessarily being committed to development, the commitment of political elites to delivering development has also been identified as a critical element of the politics of what works Booth d ; Hossain ; Leftwich ; Vu Our findings largely concur with these conclusions, and, in linking this to the underlying role of politics and power relations through the political-settlements perspective, starts to suggest how the conditions within which developmental forms of state capacity and commitment p.
